MONTHLY RARE COIN BULLETIN

VOL. 2

JANUARY 1946

NO. 1

This column is run so that beginners in coin collecting may become acquainted with the different dealers, advertising in this bulletin.

Each month there will be a different dealer recommended.

JOSEPH FRENCH MALEY

"Joe" Maley comes naturally by his collecting activities. One might really say it is an inheritance; being the son of a coin collector and grandson of Patrick Henry French, engineer, bibliophile and collector of Americana. One of his first numismatic experiences was when he discovered he could take his father's nickel three cent pieces and by placing them on the counter of the neighborhood candy store, face up, pass them for a dime. This must have been the beginning of knowing there was money in coins. Result: a well-tanned hide and a discontinuance of such activity.

Mr. Maley began collecting while still in elementary school. The first item purchased, a commemorative medal of William Penn, during Founders Week in Philadelphia, October 4-10, 1908, is still in his possession. As a native Philadelphian he is partial to items of and pertaining to "The Cra-

dle of Liberty."

"Joe" was a winner of medals in school boy art contests, but draws now only for his own amazement. He was a three letter athlete during his school years. In March 1917 Mr. Maley enrolled in the R.C.A.F., only to be informed later they could no longer take American citizens. He then entered the U. S. Navy the latter part of March 1917 and served during World War I. While in service he was a member of Navy track and football teams.

Subsequent to the war, he was a High School football coach and professional baseball and football player. The latter game in those days of play for profit was tough—two games a week—Saturday and Sunday, at widely removed points. Such names as Lou Little, Heinie Miller, "Swede" Youngstrum, Lud Wray, Jim Thorpe and many other famous names in football

All advertisers using red ● will buy coins in same condition as offered for sale @ 20% less than their selling price. In all cases limited quantities will be bought. All advertisers agree to make a full cash refund on any coin returned within 5 days, after receipt of same.

All advertising is edited to conform to requirements of bulletin. 8 point type is smallest used. I personally recommend all advertisers using bulletin space.

BOOK REVIEW

"COINS OF THE WORLD" (Twentieth Century Issues). Edited by Wayte Raymond. Large octavo. 256 pp., extensive illustrations. Cloth. New York, 1945. Second edition. \$3.50.

Without a doubt no single numismatic work, issued in the United States, has stimulated the collector's interest in foreign coins as COINS OF THE WORLD. The first edition appeared in 1938 under the guidance of Howland Wood, Curator of the American Numismatic Society. His extensive knowledge of the modern coins and the unexcelled collection of the Society, which was at his disposal, contributed in no small measure to the success of this work. Unfortunately he was not to witness the completed work. Upon his death the manuscript was finished under the co-editorship of Wayte Raymond and Stuart Mosher.

In the seven years that have passed many corrections and additions have been made in the second edition. The all too frequent variance of foreign government mint reports, from which much of this data has been taken, has been carefully correlated, to bring this work up to date. However, the coinage issued during World War II, particularly of Europe, is far from complete. This shortcoming is understandable and the editor showed wisdom in omitting issues of questionable origin.

No intelligent attempt could be made in listing the many minor varieties in so vast a field. This is essentially a subject reserved for the specialist. However, illustrations in most cases appear for every coin listed in the catalogue, including the date of the first and last issue.

Approximately 4000 coins are illustrated and described with about 1500 half tone illustrations of the major types. COINS OF THE WORLD, edited by Wayte Raymond, is the authoritative work on the modern world coinage. It is recommended as an indispensable book for the collector, libraries, and universities.

COINS OF THE WORLD

Twentieth Century Issues

Second Edition

A compilation of numismatic knowledge gathered over a long period of years, the original publication of which (in 1938) gave collectors their first authoritative reference work on modern coins. Outstanding authorities, collectors and dealers have contributed their knowledge to the production of this book, making it as complete and correct as possible.

Approximately 4,000 coins are listed and described, with the values given. Nearly 1,500 half tone illustrations show the types of all issues. "Coins of the World" is the standard reference book on modern world coinage.

EARLY U. S. \$5.00 GOLD

1795 Extremely fine. Price \$135.00. This is the first year of issue and a very desirable coin. A very choice item, and only the breast of the eagle on the reverse side shows signs of wear.

1798 Extremely fine. Price \$75.00. Has proof surface which looms through beautifully. Is sharply struck and well centered. Truly desirable.

1799 Very fine. Price \$85.00. It is conservatively graded and might even be slightly better than very fine. This year has a shorter issue than most years. For Historians, it is the year in which George Washington died.

1800 Extremely fine. Price \$60.00. It has a beautiful proof surface on obverse and reverse, and some might call this a gem proof. It has tiny edge nick not noticeable on surface of coin. We still say a "beauty."

1802 over 1. Very fine. Price \$50.00. Practically no sign of wear, and the overdate is very sharp and plain.

1803 over 2. Extremely fine. Price \$55.00. Well centered, well struck, overdate plain, and some might even call this uncirculated. No signs of wear.

1805 Very fine to extremely fine. Price \$50.00. It compares very favorable to most of the coins as listed above.

1810 Large date, extremely fine. Price \$37.50. Just a shade off of the above coin, but still a beauty.

1811 Small 5, very fine or better. Price \$42.50. Only slight signs of wear, and it appears to have some mint luster.

DELUXE U. S. GOLD TYPE SET

This set of 8 different gold coins, includes the scarcer fractional varieties many times not found in sets. All the same Liberty head design, presenting uniformity and beauty. Some of the coins date back to the civil war period. Condition on all pieces very, very fine. Consists of following denominations: \$20, \$10, \$5, \$3, \$2½, \$1, \$½, \$¼. All are mounted in a specially made holder, six 6 x 9, and each piece covered and protected.

JOSEPH FRENCH MALEY (cont'd)
annals studded the lineups of the teams, in those days of the growing pain era of pro football in Philadelphia, Providence, Canton, Pottsville, Buffalo, Baltimore, Lancaster and Washington.

"Joe" closed his athletic career in 1927 as player-coach of Olympia A.A. winner of the semi-pro championship of Philadelphia area. Now an occasional game of golf and a vacation at a "Dude Ranch" are his only form of sport. He is a contract bridge "fiend." Mr. Maley started dealing in coins in 1936, specializing in U. S. coins. This was interrupted in 1942 to enter the aircraft field as assistant project manager and manager of subcontract for prime contractor building "Bermuda and Buccaneer Dive Bombers and Corsair Fighter" planes. From June 1944 to March 1945, he was an industrial engineer, flying about Canada from Winnipeg to St. John, Newfoundland. He resumed coin activities in April 1945.

A son S/Sgt. Joseph Maley, U. S. Army was killed in action in Germany, February 1945.

Mr. Maley is a member of the American Numismatic Association, American Numismatic Society and the Brooklyn Coin Club.
